Alfalfa - "The Queen of Forages"

 MB III Brand	<i>multi-cut, high-yielding, multi disease resistant</i>	Common No.1
 Phabulous	<i>multi-cut, top-rated, multi disease resistant</i>	Certified No.1
 MB Brand	<i>FD 6, multi-cut, high-yielding, multi disease resistant</i>	Common No.1
 MB II Brand	<i>hardy, multi-cut, high-yielding, multi disease resistant</i>	Common No.1
Peace	<i>top performer in Northern areas</i>	Certified No.1
Algonquin	<i>high-yielding, tap-root type</i>	Certified No.1
MB Creeper	<i>creeping-rooted for tough conditions</i>	Common No.1
Common		Common No.1

Alfalfa is Pre-Inoculated with Nitrogen Gold

Alfalfa Blends - "The Tradition Continues"

 BC Northern	<i>3 way, MB II, Algonquin and MB Creeper</i>	Common No.1
 BC Southern	<i>4 way Phabulous, MB, MB II & MB III</i>	Common No.1
BC Southern - Dry	<i>3 way, MB, Phabulous, Algonquin tap root</i>	Common No.1
OK Blend	<i>economical blend of the "3 types of alfalfa"</i>	Common No.1

Alfalfa Grass Blends - "Traditional Forage"

 Alfalfa & Orchard	<i>75% BC Southern / 25% Crown Royale</i>	Common No.1
Alfalfa & Timothy	<i>90% BC Southern / 10% Climax</i>	Common No.1

Birdsfoot Trefoil - "Bloat Safe Pasture"

Leo	<i>persistent & tolerant of wet, acidic soils</i>	Certified No.1
Common	<i>persistent & tolerant of wet, acidic soils</i>	Common No.1

Cicer Milkvetch - " Persistent Non-Bloat Pasture"

Common	<i>slow establishment, long-lived</i>	Common No.1
--------	---------------------------------------	-------------

Sainfoin - "Dryland Bloat Safe Legume"

Common	<i>highly palatable, slow regrowth</i>	Common No.1
--------	--	-------------

Clover - "Legumes Add Nitrogen"

Alsike	<i>tolerance to wet, acidic soils</i>	Common No.1
Double Cut Red	<i>Canadian produced, fast regrowth</i>	Common No.1
Single Cut Red	<i>hardy, one-cut silage</i>	Common No.1
White	<i>low growing pasture type</i>	Common No.1
Ladino	<i>tall growing hay type</i>	Common No.1
Yellow Blossom	<i>hardy drought tolerant deep tap root</i>	Common No.1
Norgold Yellow Blossom	<i>hardy drought tolerant deep tap root</i>	Certified No.1

Grasses

nooth Bromegrass - "Long-life Hay Type"

Carlton	<i>northern type and the Western standard</i>	Certified No.1
Common	<i>sod forming, persistent for hay</i>	Common No.1

Meadow Bromegrass - "Rapid Regrowth for Pasture"

Fleet	<i>consistently high yields for pasture</i>	Certified No.1
Common	<i>northern grown and hardy</i>	Common No.1

Tall Fescue - "Widely Adapted and Productive"

 MB Brand	<i>endophyte free</i>	Common No.1
Fawn	<i>endophyte free</i>	Certified No.1
Common		Common No.1

Orchardgrass - "Highly Palatable Bunchgrass"

 Crown Royale	<i>widely adapted, hardy</i>	Certified No.1
Kay (25 kg bag)	<i>winterhardy standard</i>	Certified No.1
Potomac	<i>early maturing standard variety</i>	Certified No.1
Common		Common No.1

Perennial Ryegrass - "High Quality Pasture or Silage"

 MB Brand Tet.	<i>high sugar, high water content</i>	Common No.1
Diploid	<i>persistent and cold tolerant</i>	Common No.1

Italian Ryegrass - "Fast Short Term Leys"

Westerwolds Diploid	<i>high dry matter yields, cold tolerant</i>	Common No.1
 MB Brand West. Tet.	<i>high protein levels</i>	Common No.1
Italian Tetraploid	<i>true biennial</i>	Common No.1

Timothy - "Performs in Organic, Wet Soils"

Climax	<i>the standard, tolerates spring flooding</i>	Certified No.1
Champ	<i>early maturing, similiar yields to Climax</i>	Certified No.1
MB Late	<i>late maturing, similiar yields to Climax</i>	Certified No.1
Common		Common No.1

Reed Canarygrass - "Produces Forage Under Water"

 Palaton Common	<i>long-lived flood and saturated soil tolerant</i>	Certified No.1 Common No.1
---	---	-------------------------------

Grasses

Wheatgrass - "Native and Introduced"

Fairway Crested	<i>the Canadian standard diploid</i>	Certified No.1
Kirk Crested	<i>hybrid cross</i>	Certified No.1
Common Crested	<i>long-lived and drought tolerant</i>	Common No.1
Intermediate	<i>high yielding and late maturing for hay</i>	Common No.1
Pubescent	<i>drought tolerant,, sod-forming for pasture</i>	Common No.1
Slender	<i>quick to establish native grass</i>	Common No.1
Tall	<i>long-lived, saline tolerant bunchgrass</i>	Common No.1

Wildrye

James Dahurian	<i>fast to establish, big first year yields</i>	Certified No.1
----------------	---	----------------

Other Grasses

Park Kentucky Bluegrass	<i>certified turf type</i>	Certified No.1
Sheep Fescue	<i>low-growing and drought tolerant</i>	Common No.1
Hard Fescue	<i>hardy bunch type</i>	Common No.1
Meadow Fescue	<i>early growing fast to establish</i>	Common No.1
Creeping Red Fescue	<i>strongly creeping pasture or erosion control</i>	Common No.1
Creeping Foxtail	<i>early growth and tolerant to moist sites</i>	Common No.1

Mixtures

Performance - "Proven"

 TerraStar Horse n Field	<i>the definitive horse pasture</i>	Common No.1
TerraStar StarGrazer	<i>grass only</i>	Common No.1
TerraStar HayMaker	<i>high yielding hay production</i>	Common No.1
 TerraStar DryLand	<i>non-irrigated pasture</i>	Common No.1
TerraStar WetLand	<i>get the most from your land</i>	Common No.1
Land Recovery	<i>green-up roadsides and disturbed lands</i>	Common No.1
